DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 11-15, 19-23 and 26-28, drawn to a method to pickup paper in a printing apparatus, classified in class 271, subclass 8.1.
- II. Claims 1-10, 16-18, 24-25 and 29-31, drawn to a printing apparatus, classified in class 271, subclass 110.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as process and apparatus for its practice.

The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process as claimed can be practiced by any apparatus that is capable of performing the operational steps set forth in claims 11-15, 19-23 and 26-28. In other words, the process as claimed can be practiced by another materially different apparatus.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 3653

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
